ADDITIONAL INFORMATION

All rates subject to GST. All parts subject to GST, some parts subject to GST & PST.

Extra charges apply for labour not included in the service packages. Parts not included in labour rates. All pricing is based on general estimation. Actual price will be determined upon inspection of the bicycle.

Only repairs stated on your work order will be performed, if a problem arises we will halt and contact you with the problem and possible solutions. For example, non compatible parts, improperly installed parts, damaged or worn parts, requiring replacement or overhaul, stripped or seized parts.

Most suspension service will be performed by outside suspension experts in the area. We can perform service on your bike while the suspension parts are being worked on, then install the fork or shocks to complete the service package.

Jobs may be refused if bikes or parts are not available, or in good repair.

Refusal to have service performed relating to safety will require signing a release waiver and in some cases void service guarantee.

All bicycles are test ridden after labour is completed.

Customers will be notified once service is complete. Bicycles left for more than 7 days after the completion of service will incur a storage fee and bicycles left more than 30 days will be donated or recycled.

The customer understands that Crank Culture is not liable for loss or damage to bicycles and existing installed parts and accessories in case of fire, theft, or any other cause beyond the shop's control, or for delays related to shipping or unavailability of parts.
